 10:30am - 11:30am

**Take these everyday steps to protect your health:**

- Cover your nose and mouth with a tissue when you cough or sneeze. Throw the tissue in the trash after you use it.
- Wash your hands often with soap and water, especially after you cough or sneeze. Alcohol-based hand cleaners are also effective.
- Avoid touching your eyes, nose or mouth. Germs spread this way.

If you are sick with flu-like illness, **CDC recommends that you stay home for at least 24 hours after your fever is gone** except to get medical care or for other necessities. (Your fever should be gone without the use of a fever-reducing medicine.)  
 Please follow your agency's sick leave policy or direction specific for this flu season.
